**INTENDED USE**
Preparation of reference curves for quantitative immunochemical determination of Rheumatoid Factor (RF) in human serum.

**COMPOSITION**
A dilution of human plasma containing a high level of RF with saline. The dilution is liquid stabilised. Ready to use.

**STORAGE AND STABILITY**
The expiry date of the product at 2-8 °C is listed on the label. After first opening the container, the serum can be used for 6 weeks if stored tightly closed at 2-8 °C after use. Do not freeze.

**PRECAUTIONS AND WARNING**
1. For in Vitro Diagnostic use.
2. Each individual donation intended for use in manufacture of protein control serum was tested for hepatitis B surface antigen (HBsAg), anti-hepatitis C virus (anti-HCV) and anti-HIV1 and HIV2 by FDA required test. Only donations with negative findings were used for its manufacture. Nevertheless every product obtained from human body fluids should be handled with appropriate care in accordance with recommended procedures for biohazardous materials since absence of infectious agents can never be proven.

**ASSIGNED VALUES**
Titrated value for RF is based on WHO standardisation:

RF: xxx IU/ml

**USED SYMBOLS**
- REF: Catalogue Number
- LOT: Lot Number
- Manufacturer
- i: See Instruction for Use
- IVD: In vitro Diagnostics
- Storage Temperature
- Expiry Date
- CONT: Content
