INTENDED USE
Cleaning solution is an aqueous enzyme mixture, used for preventing protein build up in the fluid lines of the ISE module in the XL Clinical Chemistry Auto-analyzer.

WARNING
For *in vitro* diagnostic use only. To be handled by entitled and professionally educated person.

CONTENT
Reagent R1 – Daily Cleaner Diluent, 1 x 90 ml: 
HCl (0.1 mol/l) and salts
Reagent R2 – Daily Cleaner Powder, 6 x 0.3 g: 
pepsin (0.3 g)

PREPARATION
1. Add daily cleaner diluent to top of pepsin bottle label (12 ml) and shake well.
2. Record date.
3. Refrigerate at 2 – 8 °C.
4. Discard 4 weeks after mixing.

DIRECTIONS FOR USE
Shake well before use. Dispense 0.5 ml of cleaning solution into the XL sample cup and place on the position for ISE cleaning. Follow instructions as listed in the XL operator’s manual.
The cleaning solution should be run once a day to prevent protein build up or at 8 hrs intervals if the ISE module performs more than 50 samples per day.

STABILITY AND STORAGE
Store at 2 - 25 °C until expiration date on labels.

WARNING AND PRECAUTIONS
Reagent 1 is not classified as hazardous.
Reagent 2 contains pepsin.

Danger
Hazard statement(s):
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335 May cause respiratory irritation.

Precautionary statement(s):
P261 Avoid breathing dust.
P280 Wear protective gloves/protective clothing/eye protection.
P302+P352 IF ON SKIN: Wash with plenty of water and soap.
P304+P341 IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

1. Avoid reagent contamination.
2. Keep the container tightly closed and store reagents in the original package.
